

BODY LANGUAGE INVENTORY

FOR THERAPY ANIMALS

AAAIP
Association of Animal-Assisted
Intervention Professionals

Understanding what your animal is communicating through their body language will help you to know when to apply techniques to support your animal, including removing them from a situation, if necessary. Each animal's cues will vary by species and individual.

Complete this inventory to help you recognize how your particular animal looks and behaves when they are in each of the three zones.

Comfort Zone	Body Zone	Observation
<p data-bbox="149 575 261 656">Green Zone</p>  	Head	
	Core	
	Hindquarters	
	Behavior
